

# MARIN/SONOMA MOSQUITO & VECTOR CONTROL DISTRICT

## JOB ANNOUNCEMENT

## Source Reduction/Wastewater Specialist

**FILING PERIOD:** Closes Friday, April 23, 2021 at 4:00 p.m.

**SALARY RANGE:** \$84,497 to \$97,011 (4-step scale). See "Compensation" section below.

**STATUS:** Full time, regular hire, FLSA non-exempt

### THE POSITION

Reporting directly to the Assistant Manager, the Source Reduction Specialist's primary responsibility is to perform mosquito surveillance and control work on lands irrigated with treated municipal wastewater. Working closely with property owners and other agencies, the Source Reduction specialist also plays an important role in large-scale physical control of mosquito habitat, managing vegetation and transporting specialized equipment in wetlands and tidal marshes. Equipment operated ranges from all-terrain and amphibious vehicles to excavators, Snowcats and watercraft.

This position also acts as a Vector Control Technician when needed, for which training may be provided if necessary. For more information on job specifications, duties, minimum qualifications, and other requirements, please see the job description. The employment list established from this position will remain active for one year and may be used to fill future vacancies for this position classification.

### COMPENSATION

A four-step salary scale (see above) applies. A 1.6% COLA increase will apply on July 1, 2021. Salary will be paid in accordance with the Western Council of Engineers Management/Confidential Bargaining Unit Memorandum of Understanding, including longevity pay. Information on applicable employee benefits is available on the District's website under: Transparency > Financial Information > Other Financial Related Documents > District Employee Benefits.

### ELIGIBILITY

For minimum qualifications, physical demands and essential functions, see the official job description. The ideal candidate will be knowledgeable about mosquito biology, source reduction measures and other forms of mosquito surveillance and control contained in the District's Integrated Vector Management Plan. Strong skills in the following areas are desirable: operation of specialized equipment, communication, collaboration, problem solving, record-keeping and time management. The ideal candidate will be enthusiastic about public health work, and able to work collaboratively with landowners, agency personnel and members of the public and community groups.

### TO APPLY

Application forms are available from the District's web site at [www.msosquito.org](http://www.msosquito.org). Navigate to: About the District > Employment to download the application materials (form + supplemental).

Send the completed application form, supplemental questions and resume (optional) to Philip Smith, Manager, MSMVCD, via email at [recruitment@msosquito.org](mailto:recruitment@msosquito.org) or by U.S. Mail at 595 Helman Lane, Cotati CA 94931. Please note that due to COVID-19, the District offices are currently closed to the public.

### SELECTION PROCESS

Applicants will be selected for interview based on all information submitted in comparison to the job description and required qualifications. Not all applicants may be selected for an interview. Thank you for your interest in this opportunity.
